
The Governor’s Supplemental Budget sent to the Legislature includes holding back 6% of unspent funds in FY10 which would be $95,000. In FY11, the reduction in appropriations would be 6% and that would be $362,000. The Minitex and MnLINK Gateway appropriations have been combined into one line with the title of Minitex/MnLINK Gateway.

“The following timeline is instructive in that it shows that upcoming events especially related to funding come up rather quickly. For example, I think we are about 7 months from having to decide what funding requests are desired for the FY12/13 biennium. At this point, projections are still in place for a major deficit, so probably hold-the-line on spending or planned reductions will be the order of the day.” – Bill DeJohn

Moving timeline for next few years:

**FY10 –**
- a. March 2010 (MN Legislative Session)
- a. April – June 2010 (Legislature adjourns in May)

**FY11 –**
- b. July 2010 – September 2010
- c. October – December 2010
- d. January – March 2011 – (MN Legislative budget session for FY12 & FY13)
- e. April – June 2011 (MN Legislative budget session for FY12 & FY13)

**FY12 - hopefully, economy will have started to recover ?! 😊**
- g. October – December 2011
- h. January – March 2012 – (MN Legislative budget session for FY14 & FY15)
- i. April – June 2012 (MN Legislative budget session for FY14 & FY15)
